LYON METAL PRODUCTS, INCORPORATED

GENERAL OFFICES AURORA LYON ILLINOIS AURORA, ILLINOIS

May 12, 1949

MAY 25 1949

TO ALL LYON DEALERS:

IMPORTANT - PRODUCTION OF NEW PRODUCTS

Attached is a temporary supplement to your current price list on Lyon Steel Equipment as illustrated in catalog #100, listing prices on items previously unpriced.

We ask that you use this supplement with your current price list dated August 16, 1948 until such time as it is possible for us to send you a single complete price list covering all items in the catalog. This new price list should go to press in the near future, covering prices on all items illustrated in catalog #100 to replace the supplement and your present price list.

Be sure to review the last page of this supplement which lists the projected starting shipping dates on these items which have been currently out of production.

Improvement in the availability of sheet steel makes it possible for us to release these new and redesigned products for production at this time. Now - for the first time since the war all items illustrated in our 80 page catalog are available.

Look this list over very carefully - there are many of these items which are in demand, with excellent sales possibilities to your customers - and some of these units will also do a real display and merchandising job in selling your own merchandise.

Merchandise well displayed is half sold - use the enclosed order blank to order at least representative floor and window samples in our standard packages - and back these sample orders up with a stock order.

This announcement is just another step as a part of our original overall plans for an expanded profit-making line for Lyon Dealers, insuring you of new products with increased market and profit possibilities.

Very truly yours

LYON METAL PRODUCTS, INCORPORATED

P. S. Practically all items of Shop Equipment illustrated in our catalog can now be shipped immediately. We suggest that you also order replenishment stocks of this fast moving equipment.
